

## Keith Bradshaw BSc (Arch), PLDA

*Light - Architecture - Space*

### Speakers Profile

Keith Bradshaw trained in both art and architecture at Bourneville College of Art and the Bartlett School of Architecture, University College London. This education provided Keith with the opportunity to develop projects where materials became less important than the atmosphere of spaces: this led very naturally to working with light.

His professional career has included a wide range of lighting design projects including civic buildings, historical restorations, retail spaces, theatres, leisure spaces and commercial projects both internationally and within the UK.

Keith joined Speirs + Major in 2002 and has since been involved in many of the practice's notable projects including the Copenhagen Opera House and much of the practice's work with fashion brands. He led the Sheikh Zayed Bin Sultan Al Nahyan Mosque of Abu Dhabi which won the 2010 Radiance Award given by the International Association of Lighting Designers. In the same year the exterior lighting of the Mosque won the 2010 Paul Waterbury Award of Distinction given by the IES: an interior Award of Excellence also went to Armani 5th Avenue for its innovative use and integration of LED. Similarly the Armani Ginza Tower won the outstanding achievement award at the 2009 Architectural Lighting awards.

Keith has written many press articles and is regularly invited to speak at international conferences' and workshops. He is based in Edinburgh and directs projects from both design studios.

Keith lives in Edinburgh and is married with three children.

### Abstract

Keith Bradshaw BSc (Arch), PLDA  
Speirs + Major  
Well Court Hall  
Damside, Dean Village  
Edinburgh  
EH4 3BE  
U.K.
