

## LSPC16 Speaker: Catharine Perez Vega

Catharine grew up in Panama City, Panama. Between 2009 and 2011 she studied French at the University of Montreal, Canada. After that, she moved to Europe and from 2011 to 2014 she studied Product Design at L'École Supérieure de Design, Troyes, France, obtaining her bachelor's degree in 2015.

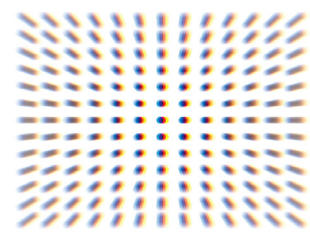

After this, a professional opportunity took her to Paris where she worked for Carré Basset as an Assistant to the Artistic Director and Beau et Bien Lightning Sculptor as Assistant Lighting Designer. These experiences allowed her to discover the world of lighting design.

Today, she is a student on the master's program in Architectural Lighting Design at Hochschule Wismar, University of Applied Sciences: Technology, Business and Design in Wismar, Germany, where she has been experiencing the multidisciplinary and poetic sensibility of Lighting Design. She expects to graduate in 2017.

Catherine's interest is to sculpt the gentle presence of light in our environment in order to understand its importance.

Presentation title:

**The Environmental Influence of Lighting Design on Flora and Fauna.  
Recommendations for Lighting Designers.**

**LIGHTSYMPOSIUM**  
WISMAR 2016
