

Prof. Achim Hack

Prof. Hack began teaching interior design and furniture construction at Burg Giebichenstein University of Art and Design Halle, Germany before moving to Hochschule Wismar, University of Applied Sciences, Technology, Business and Design. He has held the position of Dean of the Faculty of Architecture and Design at this university since 2015.

Achim's research interests mainly concern transdisciplinary communication models, innovative furniture production and easily erectable high tech timber constructions.

His specific work includes a number of technical museum exhibitions and several public institution projects. He has also worked on a range of award-winning furniture experiments with the focus on simplicity, mobility and easy handling, such as the "falter" and "falter XXL" foldable furniture and the bookshelf system "stapler".
